

SPRING 2005 HOME SHOW IS BLOOMING WITH SAVINGS

The Manufactured Housing Industry of Arizona (MHIA) has announced the arrival of their Spring 2005 Home Show March 19-27 at Rillito Raceway Park, 4502 N. First Ave. The Spring 2005 Home Show is open daily from 10:00 AM to 6:00 PM. Admission is free and open to the public.

Manufacturers and retailers will be showcasing 12 fully decorated model homes on the grounds of the park. Industry representatives will be on hand to discuss the myriad options available, including exciting new Residential and Territorial elevations, designer features and flexible floor plans, custom interior options, energy-efficient design and construction, and the many financing options available, including FHA/VA and Conventional financing. Information on land/home packages will also be available.

“This year’s Manufactured Home show promises to be spectacular,” said Michael Snyder, Home Show Chairman, continuing, “If anyone has ever considered the advantages of owning a Manufactured Home, this is the perfect place to be. Retailers will be displaying their newest designs, complete with on-site financing, manufacturer’s representatives will be here to answer questions, and this year we will be holding an Easter Egg Hunt for the entire family on the 27th.”

Visitors are invited to pick up a free CD or DVD (a \$19.95 value) packed with information in English and Spanish on Manufactured Housing: how they are constructed, where to place a Manufactured Home, financing options, even decorating ideas. Visitors are also invited to participate in the free Easter Egg Hunt on Sunday, March 27 starting at 10 AM. Gift certificates will be awarded for prizes.

The Manufactured Housing Industry of Arizona is dedicated to increasing home ownership opportunities in Arizona by focusing on image improvement, zoning equality and customer satisfaction. Its membership includes Manufacturers, Retailers, Developers, Contractors/Installers, Lenders, Suppliers, and Brokers of Pre-Owned Homes. MHIA has a legislative and regulatory program designed to protect and promote the interests of the industry. It also conducts educational programs designed to address members' needs and industry issues.
